Good afternoon. I received your email and have forwarded it to the Associate Superintendent's office for a response.

Sincerely,

[REDACTED]

**Subject:** Trauma Informed Schools and Racial Equity

Good afternoon,

I attended the CCBOE meeting on Tuesday, January 11, 2022 and during that meeting, Dr. Flynt stated that the CCSD is transparent in all that it does and if parents or citizens had questions, speaking directly with the school was a good place to start. As a result, I am contacting you to get further clarification regarding a presentation that you shared.

I understand that you have presented a power point presentation entitled, "Trauma Informed Schools and Racial Equity" (attached). As a result, I am contacting you in hopes of getting clarification as to the original intent of this presentation, who has been in the audience and if this presentation is still being utilized within your school. Additionally, I am interested in knowing if this presentation has been shared with other school leaders to be utilized within their school. Will you please share with me if this presentation has become in any way included in the professional learning at your school, or is being used in any particular manner? Thank you for you time,
